Recife Convention & Visitors Bureau – RCVB was created in April of 2001, with the goal of strengthening the business and event segment of Recife and its metropolitan area. The development of projects that make a difference in Pernambuco's tourism, especially in the segment of events and hospitality, is the priority of our entity.

It is in this basis that RCVB – a non-profit organization – offers its services and support to the **RollerSoccer World Cup**, planned to occur **in 2010**. Through this, we hope to help the events and business segment to grow in the state of Pernambuco, known as a very important industrial, commercial and third sector center in Brazil.

We are certain that Recife will gladly embrace your event, giving the participants and organizers excellent infrastructure with ideal spaces for your public. We will also happily facilitate all contact with the main businesses in tourism trade and the public administration, so that these may give you all their support for the organization of the event.

Pernambuco is also known for possessing a vast array of historical, cultural, leisure and natural sites that constantly bring in tourists from all over the world. Beautiful tropical beaches, rich museums, cultural heritage sites and intense artistic scene that will most certainly give an extra flavor to aquaculture conference.

In case the congress takes place in Recife **in 2010**, we can contribute by such actions:

- Offering general information about the infrastructure for tourism and events, accessibility and best dates for the realization of the event;
- Seeking support from the public administration, city hall and state government, as well as support from entities that may contribute to its realization;
- Offering information and contact of all the service providers required for the success of your event;
- Supporting site inspection visits to get to know the infrastructure of Pernambuco;
- Helping the promotion of the event, as a way to attract many people from around the world.

Through these terms, we believe that the **RollerSoccer World Cup** will have a great success if it takes place in our city.

Cordially,

Tatiana Menezes
